## About Us

Under the leadership of dexterous professionals, our company, ANK Cares Private Limited, has emerged as reputed manufacturer and supplier of medical products. We hold expertise in making Disposable Syringes, Covid-19 Virus PCR Test Kit, N95 Mask, Medical Blood Collection Tube, etc.. It the advanced technology and support of our team members which is helping us to develop the best in the class products at market leading rates.

Quality is always given significant importance at our production house because this is the prime thing which customers look for. Moreover, we are an accountable firm that knows its role and responsibilities, we understand that the degraded products can result in some big mishappening. This is the reason, we deliver tested range that too within a stipulated frame of duration. The packaging of the entire range is done with care using premium grade raw material which protects from any sort of damage during transportation. Also, we sterilize our range before dispatching to make them completely germ-free.

**Key Facts**
